

RAJNISH KUMAR

RPA Developer | UiPath | Blue Prism | Power Automate

9279632193 | Rajnishkumar94702@gmail.com | [LinkedIn](#) | [GitHub](#) | [UiPath-ADPv1 Certified](#)

PROFESSIONAL SUMMARY

Results-driven RPA Developer with 4+ years of experience designing, developing, and deploying 30+ automation solutions using UiPath, Blue Prism, and Power Automate. Proven track record of reducing operational costs by 25%, improving processing speed by 40%, and minimizing downtime by 50%. UiPath-ADPv1 certified professional with expertise in RE-Framework, API integration, exception handling, and Control Room management. Strong background in workforce management, ML-driven process optimization, and cross-functional collaboration with business stakeholders.

CORE COMPETENCIES

RPA Development (UiPath, Blue Prism, Power Automate) • RE-Framework Implementation • API Integration & Web Services • Control Room & Infrastructure Management • Python & JavaScript Scripting • Database Automation (OLEDB, MySQL) • Exception Handling • PDD & SDD Documentation • Azure DevOps (ADO) • Test Automation (Selenium) • Process Optimization & ML Integration • SCRUM/Agile Methodologies • Workforce Management (UKG)

PROFESSIONAL EXPERIENCE

Senior Associate – RPA Developer

Ernst & Young (EY) | Talent Team

Feb 2025 – Present

- Developed and deployed 10+ RPA automation solutions using Power Automate, Blue Prism and UiPath for talent management processes, achieving 25% reduction in operational costs and 30% improvement in processing speed
- Automated critical HR processes including employee termination, payroll monitoring, department shifts, and job code updates with 100% accuracy and compliance
- Engineered API integrations with Blue Prism utilizing Credential Manager and environment variables, enhancing security protocols for PII data transmission and reducing credential-related incidents by 40%
- Optimized data entry workflows using OLEDB automation, resulting in 40% reduction in processing time and minimized manual errors
- Implemented robust error handling mechanisms with recovery and resume stage activities, improving workflow stability by 25% and reducing system downtime by 50%
- Managed Blue Prism Infrastructure and Control Room operations including scheduler configurations, bot monitoring, session management, and issue resolution ensuring 99.5% uptime

Systems Engineer – RPA Developer

Infosys Limited | Clients: PepsiCo, American Express

Dec 2021 – Jan 2025

- Deployed 20+ high-performance automation bots using UiPath and Blue Prism, augmenting data extraction efficiency by 25% and reducing manual processing time by 20%
- Led implementation of UiPath RE-Framework for enterprise-grade automation, streamlining logging, exception handling, and application initialization while ensuring adherence to industry best practices
- Built ML-driven process optimization models leading to 15% boost in system performance and enabled predictive maintenance capabilities
- Utilized Python, Powershell scripting for automating repetitive tasks across web, mainframe, and desktop applications, achieving 20% reduction in manual effort
- Promoted SCRUM methodologies in RPA solution delivery, resulting in 33% reduction in time-to-market and enhanced cross-functional collaboration
- Collaborated with business analysts and stakeholders to develop Process Definition Documents (PDD), ensuring alignment between technical solutions and business requirements

KEY RPA PROJECTS

Employee Termination Process Automation

- Developed end-to-end Blue Prism automation for employee termination workflow handling account deactivation, access revocation, exit documentation, and final settlements across multiple web-based applications
- Ensured 100% compliance with security protocols, reduced processing time from 4 hours to 30 minutes per case, and eliminated manual errors

Card Replacement Automation (US Operations)

- Built intelligent bot to retrieve and validate card replacement data from 2 web applications and 1 mainframe system, initiate replacement orders, verify confirmations, and notify stakeholders
- Processed 500+ daily transactions with 99.8% accuracy, comprehensive audit logging, and real-time error reporting

Taj Voucher Generation System

- Automated voucher generation workflow integrating web application, mainframe system, and Outlook for seamless transaction analysis, voucher creation, and stakeholder notification
- Reduced voucher generation time by 70% and implemented comprehensive logging for audit compliance

TECHNICAL SKILLS

RPA Platforms: UiPath Studio, Blue Prism, Power Automate Desktop, Power Automate Cloud

Frameworks: UiPath RE-Framework, Blue Prism Object Studio, State Machine Design Pattern

Programming: Python, Java, VBScript, C#, .NET Framework

Database: MySQL, SQL Server, OLEDB, Oracle Database, Data Table Manipulation

Integration: Web Services, JSON/XML Processing, HTTP Requests

Tools & Technologies: Azure DevOps (ADO), Git Version Control, UiPath Orchestrator, Blue Prism Control Room, Selenium WebDriver, UKG Workforce Management

Testing: Test Automation (Selenium, UiPath Test Suite), Unit Testing, Integration Testing, UAT Support

CERTIFICATIONS

- **UiPath Advanced RPA Developer (ADPv1) Certified**
- Infosys Certified RPA Professional
- Blue Prism Developer (Infosys Internal Certification)

EDUCATION

Master of Computer Application (MCA) 2022 – 2024

Indira Gandhi National Open University (IGNOU), Delhi

Bachelor of Computer Application (BCA) 2018 – 2021

IIMT College of Management, CCS University, Meerut | Percentage: 82%

ACHIEVEMENTS & RECOGNITION

- Received 2x Infosys Insta Awards for exceptional client deliverables and automation excellence
- Selected as Semi-Finalist in Toycathon-21 organized by Government of India for innovative business startup ideas
- Consistently achieved 95%+ customer satisfaction ratings across all automation projects
